

Fundraising with Compost Bins

Norseman Plastics, the company supplying the Earth Machine™ for this sale, has agreed to allow communities or organizations to sell the compost bin for \$31.50 (tax included - the total cost of the bin) or \$36.50 (a \$5.00 fund raising opportunity for each bin sold).

The one important difference between selling bins at \$31.50 or \$36.50 is that Maine State Planning Office will not accept individual checks for \$36.50. Communities or organizations who sell the bins for \$36.50 must write one check to the Northeast Resource Recovery Association for the total amount due for **ALL** bins ordered. For example:

Recycletown Boy Scouts sell 100 bins at \$36.50 each, and collect \$3,650 in cash or checks (made out to "Recycletown Boy Scouts"). The Boy Scouts then submit a check made out to Northeast Resource Recovery Association for \$3,150 and send the check and the **Tracking Form** to the Maine State Planning Office. Consequently, the 2004 Compost Bin Sale would have resulted in raising \$500 for their organization!

Recycletown Boy Scouts 2004 Compost Bin Sale

	Revenue	Expense
Bins Sold	100	100
Bin Cost	\$36.50*	\$31.50
Total Funds	\$3,650	\$3,150**
FUNDS RAISED - \$500		

* Checks made out to Recycletown Boy Scouts

** ONE CHECK made to Northeast Resource
Recovery Assoc. from RecycleTown Boy Scouts

If you are planning on using the Compost Bin Sale as a fundraiser, be sure to check the appropriate box at the bottom of the **Participation Form**! The Maine State Planning Office will call you to discuss the details.
